

To: The people at the FCC

Please, please, please do not allow Wisconsin's "no call list" to be weakened, rescinded, or amended in any way. Both I and my wife work so when we are home with our children after work this is sacred time to us. It's bad enough that I have to sift through junk mail from the USPS - allowing our family time to be interrupted once again like in the past would be an outright violation of our privacy. So once again, do not alter Wisconsin's "DO NOT CALL" list in any way. Thank you.

Sincerely,  
Jeffrey J. Supinski
